At Knowsley Lane we are developing thoughtful children.

Do your children demonstrate any of the above attributes of thoughtfulness at home? Please share your examples with us on Class Dojo or Twitter, we would love to see them!

Attendance

We have been hit hard with the effects of the Norovirus this term. To avoid contracting this awful virus, please ensure you are all washing your hands regularly with warm water and soap.

Anti-bacterial hand gel does not kill this virus.

Norovirus Prevention

As you are aware, we took precautionary measures last week, to help prevent the further spread of the Norovirus that has been rife in the Knowsley area. To help ensure these efforts have not gone to waste please follow the advice from the NHS website as follows:

- Stay off work or school until at least 48 hours after the symptoms have stopped.
- Wash your hands frequently and thoroughly with soap and water, particularly after using the toilet and before preparing or handling food. Don't rely on alcohol hand gels, as they do not kill the virus.
- Disinfect any surfaces or objects that could be contaminated. It's best to use a bleach-based household cleaner.
- Wash any items of clothing or bedding that could have become contaminated separately on a hot wash (60 °C) to ensure the virus is killed.
- Don't share towels and flannels.
- Flush away any poo or vomit in the toilet and clean the surrounding area with a bleach-based household cleaner.
- Avoid eating raw, unwashed produce.

Proud Principal Moment...

The way a team plays as a whole determines its success. You may have the greatest bunch of individual stars in the world, but if they don't play together, the club won't be worth a dime.

This has been a wonderful term!

Our pupils and staff continue to work tirelessly to

make everyday count!

I am so proud of everyone!

Our target for next term is make sure that our attendance is significantly improved!
